SUMMARY

As a dedicated Frontend Developer, I specialize in building dynamic, responsive web applications that provide seamless and optimized user experiences. With a strong foundation in JavaScript and an eye for design, I excel at transforming complex ideas into functional solutions that prioritize both aesthetics and performance. My expertise spans across various web technologies, enabling me to create efficient and scalable web solutions.

Technologies: JavaScript, Typescript, Tailwind css, React (Next.js) Redux, Tanstack query, framer-motion, html, css , git & github
